## New Increases Recorded In Consumer Price Index | Styling |

What's the answer? Across the length and breadth

Across the length and breadth of America you hear the same question. And why? "Our money just doesn't go far enough," they say.

It's not news that inflation is this country's No. 1 economic problem. It was unsettling news, however, that despite all the government's efforts, consumer prices for March made the biggest jump for any month since the peak of the Korean war inflation early in 1951.

Apparently the inflationary here dampened others are "moonigneing to there save "moonigneing to the pack seep abreast of ables will be carried in bulk, or ables will be carried in bulk, the capacities will increase, and there will be extensive dething that hasn't gone up," said one Midwestern store-keeper. Millions say the same the biggest jump for any month since the peak of the Korean war inflation early in the packeged loading in a single container throughout its shipmont in 1951.

A NEW LOOK—Ninety years old this year, the F. W. Wool worth Co., with 3,381 outlets in the U.S., Canada, Puerto Rico, Germany. Mexico, and Spain, isn't resting on its laurels as the leading chain store operation in the world.

The company is definitely the property of t

tion in the world.

The company is definitely on the move to serve still better the millions of customers to whom "Woolworth" is a family word. "In observance of our 90th anniversary during 1969 we are giving an extra push to our long-term drive, for still further expansion in the retail field," said Robert C. Kirkwood, chairman of the board, and Lester A. Burcham, president.

A new, smartly styled Woolworth sign will make its appearance at 35 new store locations in the U.S. and Canada this year, bringing with it a vastly expanded line of merchandise totally inconceivable in 1879 when Woolworth began.

"The encouragement Frank Woolworth extended to his customers to browse aming his openly displayed goods continues today at every Woolworth store," the executives said.

From women's sports wear to vacuum cleaners and electronic organs, the Woolworth shopper is offered a wider-than-ever choice.

Woolworth officials predict that sales will top \$2 billion by the end of the year.
